## Educational Philosophy

The curriculum at CATCH recognizes the developmental needs of the whole child with equal emphasis placed on physical, emotional, social and intellectual growth. Curricular activities and materials are used to help strengthen and develop children's academic performance in school. Homework time is designated and assistance available to children each afternoon.

## Family Involvement

Family involvement is vital to Roxbury Weston Programs! To help us fulfill our mission of bringing families together, all families are involved in some way. Parents most actively participate in annual events and fundraisers. There are many opportunities from which to choose. CATCH parents and family members work through the Board of Trustees to assist in fundraising and community outreach. Parents and families support the Site Coordinator by offering their ideas about policies and standards. CATCH values and encourages parent involvement. All families sign up for specific areas of involvement during the enrollment process.

## Learning To Be 'School Smart'

CATCH serves all families with children in Kindergarten through Third Grade. We know that children this age learn best and most when they are engaged in meaningful learning activities. When children's curiosity and excitement about learning are ignited they internalize their learning and it becomes part of their cognitive repertoire. We know that children need to feel nurtured and safe to learn, and that opportunities to eat, to rest, and to choose from a range of activities are critical to their well being during out of school time. These elements are reflected in our CATCH Program. Our goal is to support children's academic achievement in school. CATCH is accredited by the National Academy of Early Childhood Programs, a distinction earned by less than ten per cent of early childhood programs nationwide. Call us today.
